Headteacher: Mrs Samantha Dimpleby BA (Hons)

Dear Parents and Carers,

Thank you to everyone who attended our Addition and Subtraction Information Session last week. It was wonderful to see so many parents and carers taking an interest in how mathematics is taught across our school and engaging in discussions about the strategies and approaches children use in the classroom.

As promised, I have attached a PDF copy of the presentation slides for your reference. I hope these provide a useful reminder of the key ideas we explored, including the progression of addition and subtraction skills from Year 1 to Year 6, the CPA (Concrete, Pictorial, Abstract) approach, and the methods used within the White Rose Maths scheme.

We recognise the important role that parents play in supporting children's mathematical development, and we hope the session has given you greater confidence in understanding and discussing the methods your child brings home from school.

Looking ahead, I am pleased to let you know that I will be running a similar parent information session focused on Multiplication and Division during the Autumn Term. This session will explore how these skills develop across the primary years and how you can support your child at home. Further details and a confirmed date will be shared at the start of the new academic year.

Thank you once again for your support and for taking the time to attend. If you have any questions about the content of the session or mathematics teaching in school, please do not hesitate to get in touch.

Kind regards,

Mr. McConnel
Maths Lead & Year 6 Teacher
